The One Step Learning GARDEN Strategy

We emphasize creative development relying on the resources available within our rural environment. The daycare is developing a special OSL Fruit and Vegetables Garden on the piece of nature property at the back of the building. Everyday the children and visitors can see from their activity classroom windows fruits and vegetables that generate questions, curiosity, conversation, and learning. Lots of topics and activities are learned from a well cared for garden. This improvisation is prior to a waterpark and playground being resourced and constructed when funds become available. Play-based themes to be learned from the OSL Garden include:

Numbers, colours, shapes, language, alphabets, arithmetic, mathematics, science, recipes,

PARENT HANDBOOK and POLICIES

nutrition, health, life plants, drawings, cutting, imagination, varieties, life skills, farming community roles, etc.

We ask that you review the information provided in the Parent Handbook Policy Manual. It includes the policies, practices, and philosophy of our centre. To look after your child's every need, it is up to all of us to work together, including timely payment of your fees, and generous donations. Thank you for your trust.

Our Learning Philosophy

- Create learning opportunities for rural children.
- Provide premium-quality safe and healthy daycare.
- Provide rural children opportunity resources to play and elevate their talents and abilities. Location should not be a barrier because we all have rural roots. As Educators our contributions count wherever we are
- Encourage children to learn and develop through play and creativity.
- Nurture and encourage curiosity, social, creativity and development.
- We are big on culture and learning traditional heritage values.
- Efficiently operate a child-centre facility managed by dedicated, motivated, nurturing and well-trained staff.
- Achieve the high standards of care through the collaboration and opencommunication between parents, children, staff, and the community.
- Recruit and maintain qualified staff and provide professional development.

The ultimate expected Results and Outcomes are that the children's' preschool years' experience enables them to explore and make sense of the world around them and use play to develop their imagination and creativity in the community. Parents get a chance to pursue gainful employment or careers. *One Step Learning* will garner support from parents and the community to recognize sponsors collaboration and contributions for the benefits of learning through play.

Our Care Values

OSL daycare believes that children are entitled to opportunities that support and encourage their emotional, intellectual, social, cognitive, and physical development. We believe that rural children are important individuals who develop at different rates and in their own ways. We seek partners and supporters to stimulate and develop children creative thinking and lifelong learning skills.

We encourage children's involvement in the community to help promote a strong sense of

PARENT HANDBOOK and POLICIES

community giving children opportunities to participate in community projects and special events. We are big on cultural heritage values.

Parental Involvement

One Step Learning encourages and welcomes parental involvement in the daycare. Through parent/staff interaction, we provide an environment that will benefit the children. The daycare plans and organizes special events for parents, such as Mothers and Fathers Days, Birthday celebration, and Cultural Days.

This is some examples of parent involvement activity:

- Share a special interest or talent with the children and/or staff.
- Teach us traditional drumming and dancing, cultural activities and symbols.
- Share a favorite snack or recipe. Donate fresh farm products and catch.
- Join your child in playing a game or finishing an activity before going home at the end of the day.
- Share your cultural experiences and celebrations with staff and children in the Centre.
- Donate materials for the program, such as art supplies (paper, yarn, foil tarttins, buttons, fabric, etc.)
- Donate toys and equipment (dress-up items, electronics etc.)
- Complete quarterly parent surveys and provide specific feedback
- Use the suggestion box
- Be a field trip volunteer
- BBQ event

Inclusion and Diversity

OSL is an inclusive and diverse charitable organization, therefore we welcome children of all backgrounds and family circumstances to our programs.

OSL makes a deliberate effort to create supportive, socially inclusive and culturally sensitive environments, routines, transitions, programming and activities that are accessible, relieve stress and meet the needs of all children. OSL programs recognize and celebrate differences and unique abilities.

Inclusion is ensuring active and meaningful participation of every child in the program, regardless of gender, physical, cognitive, developmental, behavioral, social or emotional need. Educators will demonstrate positive attitudes when making program changes to accommodate all the children. Educators enable children to understand one another better by using materials like

PARENT HANDBOOK and POLICIES

books, puzzles and toys, which address a full range of diversity (e.g. age, ability, culture, ethnicity, family composition, gender).

Programmed activities are open ended and can be adapted to meet all children's exceptionalities.

Directors and Educators ensure that children can express and share these qualities within their peer group. Educators will promote peer interactions, relationship building and play so all children are successful in the program.

The Program is responsive to individual needs and will work in partnership with families and children (and relevant stakeholders, when necessary) to allow for the success for all children in our programs. When it is recognized that children require additional support, steps will be taken, with family assistance, to foster this success. These steps may include, but are not limited to:

- Educators being aware of individual children's goals
agreements and fulfilling these during play experiences with peers
- Educators will understand their role in regards to the children's individual success
- Educators will attend relevant professional development and training
- Parent/Guardian/Teacher/OSL meetings
- Parent/Guardian/OSL Educator open communication (in person, email and/or phone)
- Partnerships with External Agencies for resources for children and families
- Sharing explanations of children's needs to Educators, children and families, without disclosing personal information, to foster understanding, appreciation, acceptance and respect of individual differences
- Assessing, adjusting and preparing environments, routines, transitions, programming, equipment and activities to foster success

To demonstrate the diversity in our programs, we may display children's work, celebrate and recognize culturally significant holidays and provide opportunities for children and families to share their abilities.

Upon registration parent/guardians are asked to share with us about their child and family's heritage (familial, cultural, and spiritual), so we can incorporate it into our program.

Focus on Girls

OSL recognizes the challenges rural children face and the limited opportunities due to a variety of reality reasons e.g., location, and lack of resources, among others. OSL strongly believes in human rights, gender equality and the importance of traditional values and humanity. For historical global perceptions, biases and sometimes traditional views, girls and women have been subjected to limited opportunities that should be open to all genders and humanity without exception. This can improve.

Therefore, OSL will consciously work to close the gender gap through opportunities, policy, leadership, participation, and our Educators commitment in all relevant activities. One Step Learning Opportunities Centre makes it a priority objective to empower rural children, especially girls and women needs. OSL will manage, direct, and control the project in Entumbil, Ghana, to

PARENT HANDBOOK and POLICIES

advance literacy, prosperity, and equal opportunity in the community especially for girls and women.

Outdoor Play Policy

Children will be expected to participate in a daily outdoor physical activity as part of the daily program. We believe that the outdoor learning environment has much to offer children and that outdoor play is central to young children's learning. We will visit nearby farms, orchards, the neighborhood forestry environment, parks, and playgrounds as permitted. Therefore, if the child is feeling too unwell to go outside and participate in our daily outdoor program, we kindly ask parents to keep their child home for that day. Educators shall keep reminding parents.

Outside play and park rules

Before we go outside with kids, staff will make sure of following:

- Inspect play yard before taking the children outside.
- Ensure that the gate is closed, always locked while children are outside, and that security is informed.
- we will make sure that staff and volunteers always supervise children at the park or at Centre's outside play area.
- Ensure that staff set up different kind of outside activity according to weather for children and participate in that activity.
- Staff must include variety of physical and movement activity for outside in their program planning.
- Kids must wear weather appropriate clothes.

Daycare staff will ensure safety by completing a head count from the attendance list at the beginning, the end and few times during the field trip. To ensure the safety of our children, we will ensure that the daycare name and phone number is pinned on the children's clothing using safety pins. We will ensure that minimum ratios are met at all times and increase ratios by providing extra support staff and/or ask for parent volunteers to join our outings. we may take a child to an activity off the program premises only where:

Emergency Evacuation Policy and Procedure

We will ensure that children's safety is maintained at all times. Security at the premises is paramount to OSL. In case of an emergency all children, staff and visitors are expected to leave the building. For a start, everybody will assemble within the compound by Muster Point, (i.e., the fence towards Ajumako, southside of the facility). Staff will help children leave the building in an organized manner. Staff and Principal (or Local Manager in her/his absence) will ensure that a head count is done before and after all children have left the room to ensure total evacuation of the building.

Our meeting location for parents to pick up their children will be the Muster Point **at outside the fence going towards Entumbil Community Hall by the Roman Catholic church, i.e. climbing the hill road.**

In order for Children and staff to be prepared for a real emergency, a drill will be practiced quarterly at the Centre.

- The staff must take the attendance book, first aid and portable Emergency record

Release of Children Policy

Only the authorized parent(s) or others identified by the parents can pick up a child. Parents can provide the names of authorized pick-up persons on the child's enrollment form. Parents are asked to call the Centre when an alternate person will pick up their child, even when they are listed on the enrollment form. Parents may provide written notice of alternate pick-up persons at any time. If written notice cannot be provided, we will accept a phone call from parents. Staff are required to ask for identification if they do not know the person picking up the child. Under no circumstances can a child be released to an alternate person unless the parent has informed the Centre. Daycare children will not be released to anyone under the age of 18 years unless the individual is the parent of the child, or the parent has given special permission (e.g., the child's minor siblings under 18 years).

If a staff member suspects the person picking up the child is under the influence of alcohol or drugs, the parent/guardian will be referred to the designated person in charge who will offer suggestions for alternate transportation (i.e. a taxi). If the parent/guardian is uncooperative, the police will be called to make a report of a person suspected of driving under the influence of alcohol or drugs.

Children will be released to parents and emergency contacts listed on the child's registration form. Parents are required to inform the Centre of any custody and access arrangements that are relevant during the hours the child is at the centre. If parental access is restricted in any way during daycare hours, legal documentation must be provided. Without a copy of a legal document detailing parental access, we cannot deny access to children by parents. It is important that parents have regular and clear communication with the Principal (or Local Manager in her/his absence) regarding custody and access. If one parent or a guardian has sole custody of a child and provides a legal document that clearly defines that the non-custodial parent does not have access during our operating hours, we will not release the child to a non-custodial parent. Should the situation arise where the non-custodial parent comes to pick the child up, we will ask for supporting documentation for access and contact the sole custodial parent and the police if necessary.

Related Matters

Family Involvement and Events

At the OSL we strongly believe that Child Care must be a shared responsibility between parents/guardians and Child Care Educators. Programs will host special events throughout the year and families are encouraged to participate. Opportunities are available for families to volunteer in various components of the program.

Community Involvement

Children will be given the opportunity to identify activities to support within the local and global community. Educators will work with the group to determine the nature of the program's involvement with that organization and ensure that it is framed within the lifelong learning skills and Play elevates Talents and Abilities statements.

Off site excursions

Off-site excursions are an important part of our programming as they provide children with the opportunity to take an active role in differing areas of our community. Suitable opportunities are identified based upon the community in which the program is located and the children's interests.

As with other aspects of the planning process, children will have the opportunity to suggest fieldtrip destinations and activities to engage in off site. There may be different off-site activities planned to meet the different developmental needs of the children. Therefore, not every child may be able to participate in every off-site activity.

A permission form will be available in advance of the excursion informing families of the location, address, method of transportation, phone number, supervision arrangements with respect to the activity, and departure and return times and requiring a signature. The permission form must be completed and signed by the parent/guardian to ensure children's participation. All permission forms must accompany the program on the off-site excursion.

Off site excursions take place in all weather conditions and children should be prepared accordingly.

Items from Home

We recommend personal items from home (i.e. hats, mitts, jackets, blankets, cups, bottles etc), be labeled with children's names to prevent cross contamination.

It is recommended that parents ensure the child has two change diapers or pads in their backpack every day so that could be used in case the child has a toiletry accident.

Each program has developed guidelines surrounding toys from home as we recognize that comfort items are important to children and families. Any items brought from home are the responsibility of the child and not the program.

PARENT HANDBOOK and POLICIES

Programming and Child Involvement

Various activities are offered each day, depending on the emergent and stated interests of the group. Each program's planning allows for children to experience both independent and Educator directed activities in both large and small groups. Planning is flexible to allow for spontaneous activity to develop.

Educators will work to ensure that toys, equipment and planned activities are available to the children that reflect their ages, interests and abilities. This will be based upon observations as well as the stated preferences of the children.

Each program has an established means of allowing their children to be involved in programming which also gives Educators an understanding of the children's current interests, ideas and strengths. For example, observations, daily conversations, surveys, programming clubs, and/or suggestion boxes.

All children are given leadership opportunities in programs.

Educators will work with the children in each component of their care to develop a set of behaviour expectations for inside and outside of the program.

All Educators need to prepare a program list of things they would need for programming.

Documentation of Programming

Programming is documented for each component of the program by Educators with prominent involvement from the children – directly or through observation. Accurate documentation of observations and weekly plans is kept to maintain consistency and allow for emergent interests to be identified.

Gross Motor Activity

Each program will offer a compulsory daily component of gross motor activity, to promote a healthy lifestyle for those in our care. Children will experience gross motor activity outdoors weather permitting.

Children will have the opportunity to experience co-operative games in an outside or gym environment.

Portable sports and recreational equipment may be available to the group during the gross motor component. This equipment will facilitate physical activity that promotes both group and independent play.

We value family feedback on our programs and invite you to share them with us. Please contact us at contact@onesteplearning.org with your comments on our handbook and policies.
