

DURAFOAM

“Extra Long Lasting”

- Ideal for hot and dry days on bare ground.
- Lasts up to 10 times longer than other brands.
- Superior results in high pressure foam marker systems.

Principle Functioning Agents:
Anionic Surfactants and Butanol.
TOTAL Principle Functioning Agents.....35%
Constituents ineffective as a spray adjuvant65%
Exempt from tolerance under EPA 40 CFR 180.1001 (c).

A water soluble agricultural foam marking concentrate. Durafoam provides dense, high expansion foam, having excellent stability when applied through foam generating equipment.
Under warm and dry conditions, Durafoam will last 10 times longer than most foam marking concentrates. Typical usage is 2-3 quarts per 10 gallons of water.
Add 1 pint Durafoam plus 1 pint Foam-Line per 10 gallons of water for a mark that will last 2 times longer than Foam-Line alone!

DIRECTIONS FOR USE:

- Add 2-3 quarts per 10 gallons of water and mix well.
- Mixed at 3 quarts, Durafoam will last approximately 1 hour on bare ground on a 90 degree day.

CAUTION: CAUSES EYE IRRITATION

Notice: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use, storage or handling of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. The risks include, but are not limited to damage to plants, crops and animals to which the material is applied, failure to control pests, damage caused by drift to other plants or crops, and personal injury.

Net Contents: 2.5 Gallons
