

Preschool Subsidy and Operating Grants! January 2022

Licensed preschools are set to receive a \$75-a-month government operating grant per child which means our fees will be lowered by \$75.00 per registration fee. Call the preschool at 403-362-4828 for more information.

Families with children enrolled in a licensed preschool program can apply for a subsidy of \$125 per month effective January 2022. This means all eligible families with an income less than \$180,000 could receive \$125 per month.

Families can only receive one subsidy type. Families who have children enrolled in any other licensed program will receive the subsidy type with the highest subsidy rate.

Families must meet the childcare subsidy [eligibility requirements](#) listed below to qualify.

For more information, see the [federal-provincial child care agreement](#). Updates to the [estimator tool](#) are underway and will be available in the new year.
