Access Code: 998-197-261

Introduction to Our Speaker – Yann Caussel

Yann Caussel is the Outside Sales Manager for CaptiveAire. Yann holds a Master of Mechanical Engineering from Arts et Métiers, France as well as a Masters of Global Innovation Management from North Carolina State University. Yann is focused at applying new technologies to the highly demanding and traditional ventilation design principals, such as, improved fire suppression technologies, advance make up air solutions, prefabricated ductwork and versatile kitchen controls.

Outgoing President Message

Dear Chapter Members,

It has been my pleasure to serve as your Chapter President for the 2019/2020 year, as we adapt and navigate through a challenging time. Despite the difficulties faced, there is a lot to be proud of as we reflect on the past year. We welcomed ASHRAE Society President Darryl Boyce for a special event, organized several technical tours including the new surgical suites at the Georges-L-Dumont hospital, and hosted a number of technical presentations both in-person and online. I am confident that our Chapter will continue to succeed as we move forward into the 2020/2021 year.

Our successes are not the result of one individual, but of a dedicated team. I am honoured to have worked alongside the Chapter members who volunteered their time on the Executive and Board of Governors to ensure the Chapter continues to grow. We welcomed several new faces this year and were fortunate to rely on the wisdom of those who have been involved for many years. So a special thank you to everyone who helped out, old and new.

I would like to extend my best wishes to this year's incoming president, Kevin Leger. I have full confidence that Kevin, along with the new Board of Governors, will continue to be a great asset to our Chapter.

Finally, I would like to say thank you to all of our Chapter members, and I encourage everyone to become involved and support the work that we do. We are a team of volunteers and rely on the help of our members to lead the chapter forward. We are always looking for new members who are interested in taking their membership to the next level.

Although we are in the midst of uncertain times, I look forward to what the future holds. We have a strong team in place to lead us forward, and I am hopeful that we can continue to build the Chapter for many years to come.

Stay safe,

Ryan Gosson

Incoming President Message

Our world is currently going through tremendous change. We are living in a different era, which makes us consider new challenges and possibilities in our industry. For example, travelling is limited more than ever, however, with today's technology, we now know that it is possible to connect with our peers more than ever with online tools. Although change is always challenging, with challenges comes new opportunities. During these unprecedented times we need, more than ever, to work together and grasp this opportunity to improve our field. We should consider reviewing our procedures and as a result, emerge stronger and be more creative and efficient in our approach. ASHRAE has always been an excellent networking tool, and we need more than ever to come together to elaborate a plan that will keep the current and future members of ASHRAE motivated to continuously participate and improve our industry.

Moving forward this year and unless permitted otherwise, our program will be virtual. We will be hosting virtual webinars throughout the year and, therefore, will provide up to date data and knowledge to our members. The objective of these webinars is to share our mutual knowledge of the industry and continue helping each other expand the foundation our predecessors have built.

I would like to take this opportunity to thank our members for their continued support and we look forward to working with you to discuss your concerns and improve our industry.

I would also like to thank the executive and board of governors for the wonderful program we had for the year of 2019-2020 and the hard work they completed to keep ASHRAE, our organization, moving forward. Your help and input are always greatly appreciated and will not be forgotten.

I look forward to another successful year of ASHRAE, even if interactive, and I hope to be able to meet you all again, in person shortly.

Sincerely,

Kevin Leger
