

## Extreme Wetting Surfactant

- Superior spreading enables coverage of virtually any surface.
- Reduces surface tension to an amazing 25 dynes/cm.
- Mixes wettable powders, preventing clogged nozzles, sprinklers, and screens.
- Compatible with most spray tank mixes, even containing fertilizers.
- The most reliable high quality surfactants since 1979.

QWENCH reduces surface tension to 25 dynes/cm allowing needed hydration along with proper nutrients reach deep into the soil. (Waters surface tension is 72 dynes/cm)

QWENCH helps achieve a proper ratio of 50% solids, 25% water, and 25% air that is necessary to maintain lush healthy turf.

QWENCH helps soil and foliage roots with waxy build-up receive proper hydration.

### Principle Functioning Agents:

Ethoxylated Alcohol, Glycol, and Dimethylpolysiloxane.

TOTAL Principle Functioning Agents .....85%

Constituents ineffective as a spray adjuvant .....15%

Exempt from tolerance under EPA 40 CFR 180.1001 (c).

CAUTION: CAUSES EYE IRRITATION

Net Contents: 2.5 Gallons

### DIRECTIONS FOR USE:

#### Soil Wetting Agent:

-Turf, Golf Course Tees, Greens, and Fairways-

Apply 3 oz per 1000ft<sup>2</sup> early spring then repeat application at 2 oz per 1000ft<sup>2</sup> every 4-6 weeks in sufficient water for good coverage to overcome hydrophobic soil conditions.

#### Dew Control Agent:

Apply 2 oz per 1000ft<sup>2</sup>.

#### Spray Adjuvant:

24oz brings surface tension down to 25 dynes/cm.

Notice: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use, storage or handling of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. The risks include, but are not limited to damage to plants, crops and animals to which the material is applied, failure to control pests, damage caused by drift to other plants or crops, and personal injury.
