2008 Chapter Regional Conference (CRC) Update

Our Chapter recently attended the 2008 ASHRAE Regional Conference for Region II that was held in Montreal in August. The Chapter was well represented by a delegation of six active members of our Chapter.

We have had a tremendous year in terms of overall performance and as a result, we have been awarded several awards for its hard work. For this, we have to thank all of the volunteers of our Chapter that serve on the executive and the committees that make the Chapter grow and perform as an organization. At the conference, our Chapter received several awards for Research Promotion.

As a group, we have contributed a total of \$7,640 for ASHRAE Research, which exceeded both our Goal and our Challenge Goal. For the first time ever, ASHRAE raised over \$2 Million for ASHRAE Research worldwide. We have already started the fundraising drive for the 2008-2009 year. It should also be noted that for the last year, every dollar that our membership has contributed has resulted in \$5 worth of research grants in Canada. These research grants are awarded to Universities and research facilities to help create and upkeep the standards and handbooks that we use in our profession. As the current Chapter president, I would like to personally thank all of the donors who have contributed to this great cause and encourage you to continue in our efforts to advance the research of HVAC & Refrigeration.

Our Chapter also performed very well in regards to the Presidential Award of Excellence (PAOE). Points are accumulated by each Chapter in six different categories including Chapter Operations, Chapter Technology Transfer, Historical, Membership Promotion, Research Promotion, and Student Activities. Our Chapter finished highest of all Chapters with a membership between 100 and 200 members within our Region, and third place overall within our Region, behind the Montreal Chapter (428 members) and the Toronto Chapter (950 members). Our Chapter also had an outstanding year in regards to Chapter Technology Transfer, accumulating more PAOE points than any other Chapter within our Region.

For all of your generosity and for the hard work of our volunteers, we have received the following awards:
