FIRE EXTINGUISHERS

With more than 30 years experience, we are experts in selecting the type-appropriate fire extinguisher that will satisfy the Fire Safety Codes. As a costumer, it is very important for you to know what there is no "one-typefits-all" fire extinguisher. Each fire extinguisher has a specific use depend on potential fire hazardsthat may occur.

Avante Fire & Safety provides a wide array of fire extinguishers that are specific to your business and industry needs. Our experience and knowledge enable us to access your property and determine which type of fire extinguisher is required specific to your operation and in accordance with local, provincial and federal fire codes. Avante Fire & Safety sells and installs only the highest quality brands and product in the industry.

ALARM AND DETECTION

Fire alarm and detection systems are the cornerstone of any fire protection system. Trusted to provide advanced warning and evacuation in the event of a fire. The consequences of a malfunctioning fire alarm system can result in a devastating loss of life and property.

Whether you need a simple monitoring panel for a fire sprinkler system or a complex addressable system incorporating smoke and fan controls, rely on Avante Fire & Safety's experienced professionals to design, install, inspect and service the life safety system appropriate for your business facility.

Because we are not an equipment manufacturer, Avante Fire & Safety provides unbiased recommendations for the system that will best protect your people and facilities. Our customers receive the highest level of protection without the need to commit to a service provider that only offers proprietary equipment and software.

DESIGN AND INSTALLATION

Avante Fire & Safety's staff of fire alarm and detection specialists will complete a thorough analysis of your facility and integrate the proper alarm and detection elements into your fire protection system for a complete, comprehensive fire and life safety solution.

Our team of engineers and technicians can furnish your facility with the necessary alarm and detection equipment.

- Conventional Detection Products
- Addressable Detection Products
- Audio/Visual Notification Appliances
- Smoke and Fan Controls
- Elevator Recall
- ULC Certification
- Fire Alarm Control Panels
- Fire Alarm System Networks
- Test, Inspect and Monitoring Devices
- Emergency Voice Evacuation Systems

Our good-standing relationships with great manufacturers enable Avante Fire & Safety to recommend the best fire protection system for your business environment. Because we are not an equipment manufacturer, we offer unbiased recommendations based on the system to best protect your people and facilities.

REPAIR, SERVICE AND INSPECT

The National Fire Protection Association (NFPA) mandates that fire alarm systems in protected premises be tested regularly. In addition, local fire codes and insurance companies may require more frequent testing. Avante Fire & Safety's staff of trained technicians can regularly test, inspect, service and repair your fire alarm system to meet all required codes and facility specifications.

Avante Fire & Safety also offers 24 hour central station monitoring that allows for the constant management of your systems. The entire system is programmed to communicate with the appropriate authority - the local fire department, our central station monitoring service, and your company representative - based on the type of trouble signal received.

We believe in protecting
our clients' assets but most of all the
SAFETY OF THEIR PEOPLE

OUR GOAL

is to provide a stunning service second to none.

We at Avante Fire & Safety strongly believe in being efficient and most of all reliable. We offer a 24hr service system that allow you, the "Client" to contact any of our certified emergency response and technical support personnel at all times based on your requirements.

*We take Fire Prevention and
Life Safety to a higher level*
