

# INCITE 90

“90% Active Nonionic Surfactant”

- Superior spreading enables coverage of virtually any leaf surface.
- Reduces surface tension to an amazing 27 dynes/cm.
- Use whenever a 90% active NIS is recommended.
- Compatible with most spray tank mixes, even containing fertilizers.

Principle Functioning Agents:  
Ethoxylated Alcohol, Glycol, Glycerol.  
TOTAL Principle Functioning Agents .....90%  
Constituents ineffective as a spray adjuvant.....10%  
Exempt from tolerance under EPA 40 CFR 180.1001 (c).

**INCITE 90** is a water soluble NIS surfactant formulated to reduce water surface tension and allow pesticides, herbicides, and fungicides produce a more uniform distribution on all foliage surfaces.

When the correct quantity of **INCITE 90** is used, it will produce a smooth wetted surface which reduces the possibility of spot injury from large pesticide droplets.

**DIRECTIONS FOR USE:**  
As a wetter-spreader:  
—32 ounces per 100 gallons—  
To reduce surface tension to 27 dynes/cm:  
—64 ounces per 100 gallons—  
As a plant penetrator:  
—64-128 ounces per 100 gallons—

### CAUTION: CAUSES EYE IRRITATION

Notice: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use, storage or handling of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. The risks include, but are not limited to damage to plants, crops and animals to which the material is applied, failure to control pests, damage caused by drift to other plants or crops, and personal injury.

**Net Contents: 2.5 Gallons**
