

# Dowse

“Super Wetter-Spreader”

- Superior spreading enables coverage of virtually any leaf surface.
- Reduces surface tension to an amazing 25 dynes/cm.
- Mixes wettable powders, preventing clogged nozzles and screens.
- Compatible with most spray tank mixes, even containing fertilizers.
- The most reliable choice for growers since 1979.

Principle Functioning Agents:  
 Ethoxylated Alcohol, Glycol, and Dimethylpolysiloxane.  
 TOTAL Principle Functioning Agents .....85%  
 Constituents ineffective as a spray adjuvant.....15%  
 Exempt from tolerance under EPA 40 CFR 180.1001 (c).

Dowse is an extremely universal spray adjuvant that can be used in almost all crop tank mixes.

When Dowse is added to the tank mix first, it greatly aids in saturating wettable powders which helps prevent downtime from plugged screens and nozzles.

Dowse can be used with most liquid fertilizers.

**DIRECTIONS FOR USE:**  
 To reduce surface tension to 25 dynes/cm:  
 –24 ounces per 100 gallons—  
 As a super wetter-spreader and dispersant:  
 –32 ounces per 100 gallons—  
 As a plant penetrator:  
 –64 ounces per 100 gallons—

### CAUTION: CAUSES EYE IRRITATION

Notice: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use, storage or handling of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. The risks include, but are not limited to damage to plants, crops and animals to which the material is applied, failure to control pests, damage caused by drift to other plants or crops, and personal injury.

Net Contents: 2.5 Gallons
