

Preschool Subsidy

Families with children enrolled in a licensed preschool program can now apply for a subsidy of \$125 per month effective September 1, 2021. This means all eligible families with an income less than \$90,000 could receive \$125 per month.

Families can only receive one subsidy type.

Families who have children enrolled in any other licensed program will receive the subsidy type with the highest subsidy rate.

Families must meet the childcare subsidy [eligibility requirements](#) listed below to qualify.
