LEED AP, MASHrae  
Director and Regional Chair (DRC)  
Region II at ASHRAE

## Introduction to Our Speaker

**Shawn Slaunwhite** Commercial Sales Manager (Atlantic Canada) Daikin North America LLC

The majority of Shawn's career has been spent in different roles directly connected to the HVAC industry at local and regional levels. Being a bit of a building science enthusiast, Shawn is very passionate about efficiency, comfort, reducing environmental impact, and saving building owners money.

Starting as a Sheet Metal Apprentice with Roberts Sheet Metal in Dartmouth, N.S., Shawn learned about fabrication and installation of heating and ventilation systems. He continued on with his career to gain experience in the wholesale industry, and as a small residential HVAC Contractor.

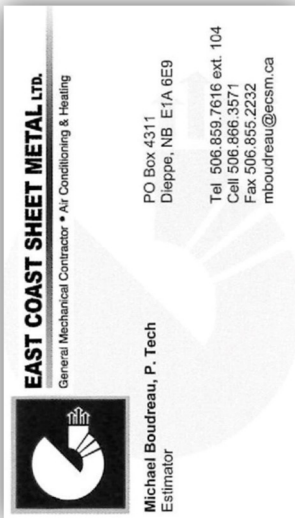

Currently in the role of Commercial Sales Manager in Atlantic Canada for Daikin North America LLC, he is directly responsible for the products in Daikin's Light Commercial Portfolio, including Rooftops and VRV equipment. Shawn has extensive training around design, application and installation of VRV (VRF) Systems, as well as compliance to ASHRAE 15 and CSA B52.

E-mail: [shawn.slaunwhite@daikincomfort.com](mailto:shawn.slaunwhite@daikincomfort.com)

## Presentation Abstract

Shawn is excited to share with you some of his training regarding designing to code compliant VRV (VRF) systems, what to look out for, and simple tactics for safety around catastrophic R410a refrigerant system failures.

## Kevin's Historical Tidbits

In November 1992 the meeting was held at Fisherman's Paradise in Dieppe. This is now the home of the present day Irving Circle K and Pita Pit on Dieppe Blvd.

Brien Storey was our Chapter President.

Instead of the usual "Cocktail hour" the Herring Choker bills it as the "Attitude Adjustment Hour"

The guest speaker was Mr. Jim Feltham of Public Works Canada who was providing an update on the proposed NB/PEI Fixed Link Project and how it was hoped that the fixed link would act as a catalyst to help kick start the construction industry.

The November meeting was "Membership Night" and RVC John Duggan joined us from Ontario.

## October Meeting Presentation Review

### Building Information Modeling (BIM)

Presented by: Mark Doyle, BIM Specialist, CBCL Limited.

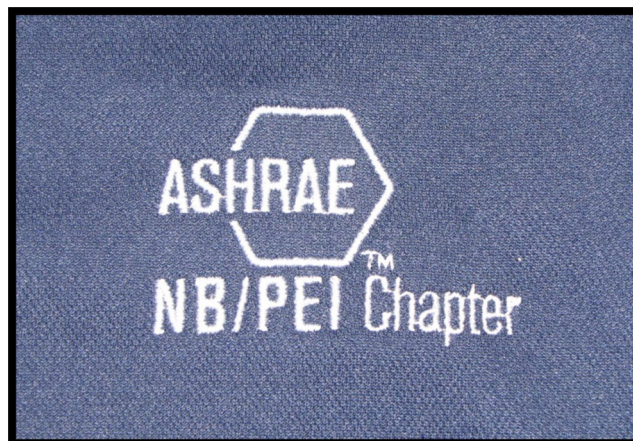

Mark explained what Building Information Modeling (BIM) is. He showed us specific examples of how this new process is transforming the traditional methods of design & construction. He elaborated on the benefits of 'data-rich' 3D models and how they can be leveraged over the lifecycle of a project. The various benefits to building owners, architects, engineers, contractors and facility managers were highlighted and we were treated to a virtual reality demonstration using a VR headset & gaming controller to navigate the rooms and corridors of a building model he had developed himself. (Very cool!)

## ASHRAE NB/PEI Crested Polo Shirts for Sale

We now have a supply of men's navy blue polo shirts with our ASHRAE chapter logo embroidered on the left chest (see photo). These shirts are 100% polyester with moisture wicking properties and are anti-microbial. They are available from Dwight Scott for \$20 (cash please) in M, L, XL and 2XL sizes. Sharlene Innes will be coordinating shirt orders for women's shirts.
