Bylaws

Did you Know....

Fire pits on all properties within the Town of Castor must meet the requirements set out in the Fire Protection Bylaw 1041. Fire pit construction includes approved materials, dimensions, and spark arrestor mesh size. Please refer to the Town of Castor web page under bylaws for a complete description of requirements pertaining to regulations on size, distance from structures, property line, and combustible materials. There is also a list of materials that are prohibited from being burned in a fire pit.

Stay informed.

For more information on this or any other by-law please feel free to call or stop by the office with any questions you may have.

Remember to call and get all the information before you start any project.
