## Electronics

A friendly reminder to recycle your electronics. A simple way to remember is anything with a plug-in cord or Battery operated, can be put into the cages provided on sites. We have been finding lots of corded tools, dvd players, lamps, and fluorescent fixtures in either the Metal pile, Household bins and Construction Piles. It's a small effort to make a huge difference.

For more information, go to the  
[www.countypaintearth.ca](http://www.countypaintearth.ca)

## Construction Pile

Please refrain from throwing loose Household garbage into the construction pile. The Household garbage attracts animals etc. and the wind blows the light stuff around the site. These piles only get hauled out once a year.

## Paint Recycling

You can recycle your Paint cans and Paint aerosol cans all year round at all three sites. Place cans in the totes provided and Aerosol into the 45gal. drums

**Sort out your Loads and Place in Designated Locations**

**Remember to Tarp and Tie-Down Your Loads**

Michael Bozek 587-282-0374

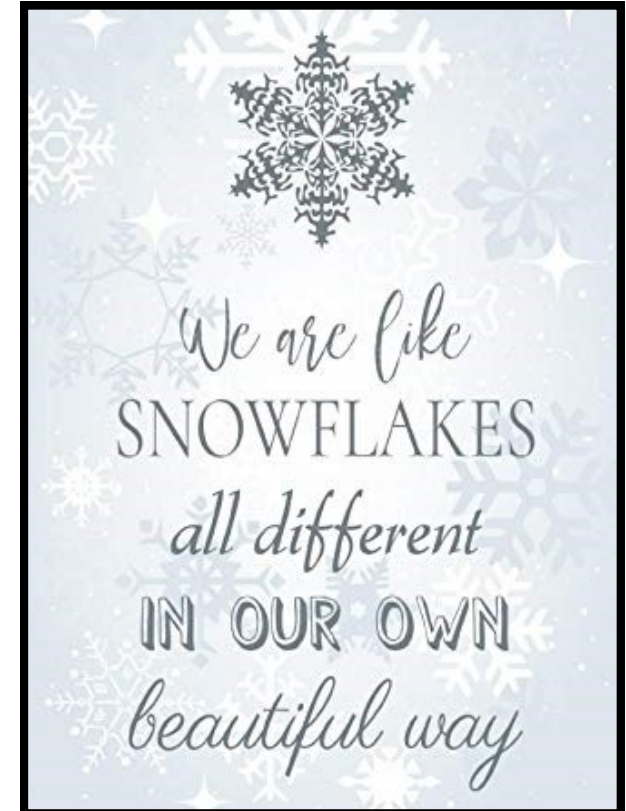

No job in the world of sports is as intimidating, exhilarating, and as stress-ridden as that of an NHL hockey goaltender. Now imagine doing that job while suffering high anxiety, obsessive compulsive disorder and depression, and having your career nearly literally cut short by a skate slicing across your neck. Clint Malarchuk shares his extraordinary and heart-wrenching life story—which includes his long battle with alcoholism and almost ending his life by a gunshot to the head—in his relentless effort to help end the stigma of mental illness and to help others who may suffer as well.
