Introduction to the speaker

Lee Chiddention.

HVAC Market Manager. (Vibration Isolation & Seismic)

With a background in Electrical Engineering, Business management and Sales, I have been with Kinetics 4 years. I currently manage the Vibration Seismic channel of Kinetics Noise Control for North America. My travels take me to many different markets, this allows me to share the latest industry changes and best practices for the application of Seismic engineering, Seismic restraints and vibration isolation of MEP equipment.

I would like to take time to highlight to the ASHRAE Moncton chapter some industry changes in Seismic for MEP, highlight how Seismic is handled differently in other markets and how we have given clarity to the Canadian code for Seismic in the Ottawa market. My hope is that we can start to build a clear set of guidelines in the Moncton market regarding Seismic restraint to make sure everything is being restrained not only to code but consistently across the board.

Problem Solvers in vibration isolation, noise and shock control

ASHRAE HVAC Design & Operation Training

2 Courses, 5 Days of Intense Instruction

Atlanta • Columbus • Denver • Dubai

HVAC Design: Level I – Essentials - Registration is \$1,264 (\$1,009 ASHRAE Member)

Gain practical skills and knowledge in designing and maintaining HVAC systems that can be put to immediate use. The training provides real-world examples of HVAC systems, including calculations of heating and cooling loads, ventilation and diffuser selection using the newly renovated ASHRAE Headquarters building as a living lab.

HVAC Design: Level II – Applications - Registration is \$854 (\$699 ASHRAE Member)

HVAC Design: Level II — Applications provides instruction on HVAC system design for experienced HVAC designers and those who complete the HVAC Design: Level I – Essentials training. The training provides information that allows practicing engineers and designers an opportunity to expand their exposure to HVAC systems design procedures for a better understanding of system options to save energy.

Visit www.ashrae.org/hvactraining to register and learn how your Chapter can earn PAOE points.

Contact Karen Murray (kmurray@ashrae.org) to discuss scheduling ASHRAE HVAC Training in your Chapter area.
