## DELIVERY CHARGE

Oh for the good old days, way back in 2004 when the price for a barrel of oil was U.S. \$36.98. That was the last time we had adjusted our Delivery Charge to \$40.00. But times change; Oil is U.S. \$133.00 a barrel, or about a 360% increase, not adjusted for inflation of less than 5%, and our new delivery charge effective June 1, 2008 is \$50.00.

## THE PRESSURE IS ON!

Did you know that you can improve your gas mileage by around 3.3 percent just by keeping your tires inflated to the proper pressure? That's over 4 cents a litre based on today's gasoline prices, which can really add up over a year! Under inflated tires can lower gas mileage by 0.4 percent for every 1 p.s.i. drop in pressure of all four tires. In addition properly inflated tires are safer and last longer. We can help with our **D and E Tire gauge**. A lifetime warranty from the manufacturer indicates this tire gauge is about the best available which features a full geared solid brass precision movement with bronze bourdon tube. Unlike piston plunger type gauges, the bourdon tube movement is not affected by changes in temperature, humidity, or altitude. If you would like one

for your personal vehicle or for your corporate fleet maintenance, simply contact a D&E sales representative or email us at; [promotions@delumber.com](mailto:promotions@delumber.com) Hurry!! Quantities are limited.

## HOLIDAY

We will be closed Tuesday July 1, 2008  
in celebration of Canada Day.

And just a reminder, we are no longer open on Saturdays.
