

# ECONO 2 DESERTER

## Stream Separator

The Master Flo Econo 2 Deserter increases the efficiency of your printing system by enabling you to double your regular production by utilizing the full width of your web press. The Econo 2 will separate two nested products at speeds in excess of 140,000 copies per hour in two streams. This machine allows quick set up, thus reducing make-ready time. The Econo 2 can be used on both heat and cold set presses.

### Features:

- Runs on both heat and cold set presses
- Advancing Transfer Conveyor
- Simple Set Up procedure
- Pneumatic pinning assemblies
- Fast make-ready time

### Options:

- Left or right sided
- Front entrance dump gate
- Custom back-end dump gates (x2)
- Caster wheels (x4)

### Benefits:

- Doubles production
- Eliminates running half webs
- Can increase press speed on lighter type copies
- Eliminates the need for an extra folder

### Technical Data

Voltage: 220-240V / 50-60Hz / 1ph  
Footprint Dim.: L=48" W=64"  
Copy width: 9" to 20" (assuming 2" nesting)  
Weight: Approximately 700Lbs
