We had an interesting variety of programs this year, which included:

September: CO2 Heat Pumps
October: Filtration Systems for Diesel Generators
November: Professional Liability (Part 2)
December: Past President's Night/Christmas Party – LEED NC
January: Efficiency NB Future Plans
February: Biomass Boilers (including full day seminar)
March: Student & YEA night, CTTC RVC Jean-Gabriel Joannette
April: Dist. Lecturer Victor Goldschmidt – Sustainability in Power Plants
Online seminar – Geothermal Heat Pumps
May: Technical Tour of NY Thermal Plant in St-John & NBCC St-John

In February, we helped promote a day-long seminar on Biomass Boilers, which expanded on the presentation of the topic presented at the February meeting. We also had several social events throughout the year, including a successful golf tournament in August as well as an afternoon outing at a Moncton Wildcats hockey game in February. Thanks to all again for a great year, and best of luck to this year's team.
