eCube Systems and Lima-Thompson Consulting Group announces a joint venture to develop an advanced software security platform.

eCube Systems and LTCG will partner together to develop a Dynamic Security offering later this year.

Houston, TX, June 2, 2019—eCube Systems, LLC, a provider of the NXTware hybrid infrastructure platform and legacy modernization tools and services, announced that it will enter into a joint venture agreement with Lima-Thompson Consulting to develop and market advanced security applications to Fortune 500 companies.

"*eCube is pleased to announce this joint venture developing an enterprise security application*" says Kevin Barnes Managing Partner at eCube Systems." *With our expertise in Hybrid Infrastructure Platforms and LTCG's in depth expertise and knowledge of computer security issues and needs, we are confident that we can build a highly advanced, scalable and portable enterprise security solution.* "

"*Our clients have been looking for this unique security solution for many years, and by leveraging each other's strengths and capabilities, Lima Thompson Consulting Group Enterprise Security Tools and Services will benefit from the rapid development and integration tools from eCube*" says Rhett Thompson, Global Sales Director Lima-Thompson. "*eCube's HIP methodology provides us with a dynamic solution around which we can build enterprise tools to enhance our security model and our enterprise services offering.*"

eCube's NXTware platform provides the infrastructure for developing tools and processes that can greatly enhance any company's security. For more information about eCube and Lima-Thompson, follow these links:
