

PIERCE

“Methylated Seed Oil/ Super Wetter Blend”

- 100% Active, nonionic, nonvolatile, emulsifiable MSO concentrate.
- Enhances the penetration of many pesticides through the waxy layer of cuticle on a leaf surface.
- Designed for use with a broad range of pesticides where a MSO concentrate type adjuvant is recommended.
- Surface tension reduction to as low as 24 dynes/cm.

Methylated seed oils have been shown to vastly enhance the translocation of pesticides.

PIERCE uses a special blend of soy products that have proven to enhance pesticide performance and reduce the risk of crop damage.

Principle Functioning Agents:
Methylated Seed Oil, Ethoxylated Alcohol.
TOTAL Principle Functioning Agents.....100%
Constituents ineffective as a spray adjuvant.....0%
Exempt from tolerance under EPA 40 CFR 180.1001 (c).

DIRECTIONS FOR USE:
For use as spreader:
16 ounces per 100 gallons
For use as plant penetrant:
32 ounces per 100 gallons
Always follow pesticide manufacturers' recommendations.

CAUTION: CAUSES EYE IRRITATION

Notice: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use, storage or handling of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. The risks include, but are not limited to damage to plants, crops and animals to which the material is applied, failure to control pests, damage caused by drift to other plants or crops, and personal injury.

Net Contents: 2.5 Gallons
