BAR DE QUE BOOKINGS

That was some winter, definitely one for the global warming crowd. Now that spring will hopefully arrive soon it is time to start thinking about an outdoor "cabin fever reliever Bar DE Que" courtesy of your friends at D&E. If you are not familiar with our innovative customer appreciation and relationship team building promotion here is a brief description.

Our mobile Bar De Que unit arrives at your job site, field operation or office location. After performing a site hazard safety analysis, we break out the Spolumbo Gourmet Sausages, buns, fixings and non alcoholic beverages for all to enjoy. There are no special requirements just tell us when, where and roughly how many guests we can expect and leave the rest to our experienced and friendly Bar DE Que Crew to make your staff luncheon, customer appreciation or special marketing event a huge success. If the weather still does not want to co-operate that does not deter us or dampen the enthusiasm. This is our sixth "season" and like any veteran, we arrive prepared for almost any situation. You can contact your Sales Representative for more detailed information, or email us at the BAR DE QUE Link found on our web site to book now before the calendar gets filled up! www.delumber.com.

HOLIDAY

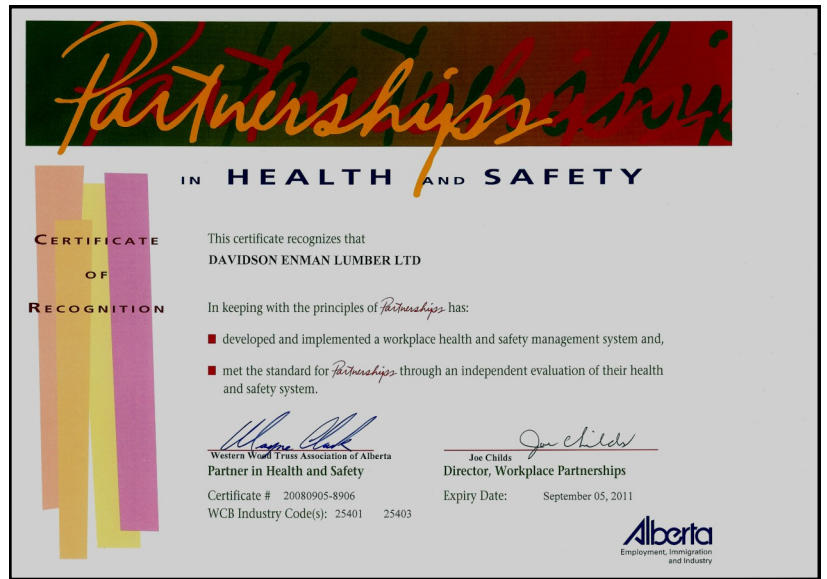

We will be closed on;

Friday April 22 Good Friday and Monday May 23 Victoria Day

WE ARE HARD COR!

Once again the Safety Program and Management Systems of Davidson Enman Lumber have passed the rigorous audit inspection of the Partnership in Injury Reduction and have retained our Certificate of Recognition for another three years for the two WBC industries; 25401 Wood Manufacturing and 25403 Home Improvement Centers that we operate under. The Audit score of 94% reflects the hard work of our Safe DE Team and all our employees. If you have a safety question or concern please direct it to our safety Director Jim MacNeil at our Cochrane Location; Phone 403 932 8825 or email safetydirector@delumber.com A copy of our Certificate can be viewed at our web site www.delumber.com under the Safety Matters Link. Do not find out the hard way that the Building Supply Dealer, Engineered Floor and/or Roof Truss Manufacturer was not COR Certified when their workers attended your work site, or your workers attended their work place!

JOIN THE CONVERSATION

The Alberta Chapter, Canada Green Building Council announced their 14th Annual Sustainable Building Symposium in Calgary on Wednesday May 11, 2011. The event will invite attendees to join the conversation to engage in the green building movement and learn from the exciting group of speakers. New for 2011, a technology showcase has been introduced to the Sustainable Building Symposium focusing on regional materials and services in the Alberta market. If you want to receive more detailed information and register for the event, visit the Canada Green Building Council web site; www.cagbc.org.

FIRE RETARDANT PLYWOOD

We are now stocking a Fire Retardant Fir Plywood in both 12.5 mm and 18.5 mm thickness. The Product is known as "D Blaze" and is available for interior applications where fire retardant construction materials are specified or required by building codes. D-blaze treated plywood exhibits a flame spread and smoke developed index of 25 or less under ASTM E flame tunnel testing of 30 minute duration without significant progression combustion. National Building Code of Canada approved, MSDS sheets are available or can be found at; www.treated.wood.com/products/dblaze. Pricing is a dependent of quantity required, call your Sales Representative or our Order Desk at The Lumber Number 402 243 2566. Online enquiries can be sent to; sales@delumber.com.
