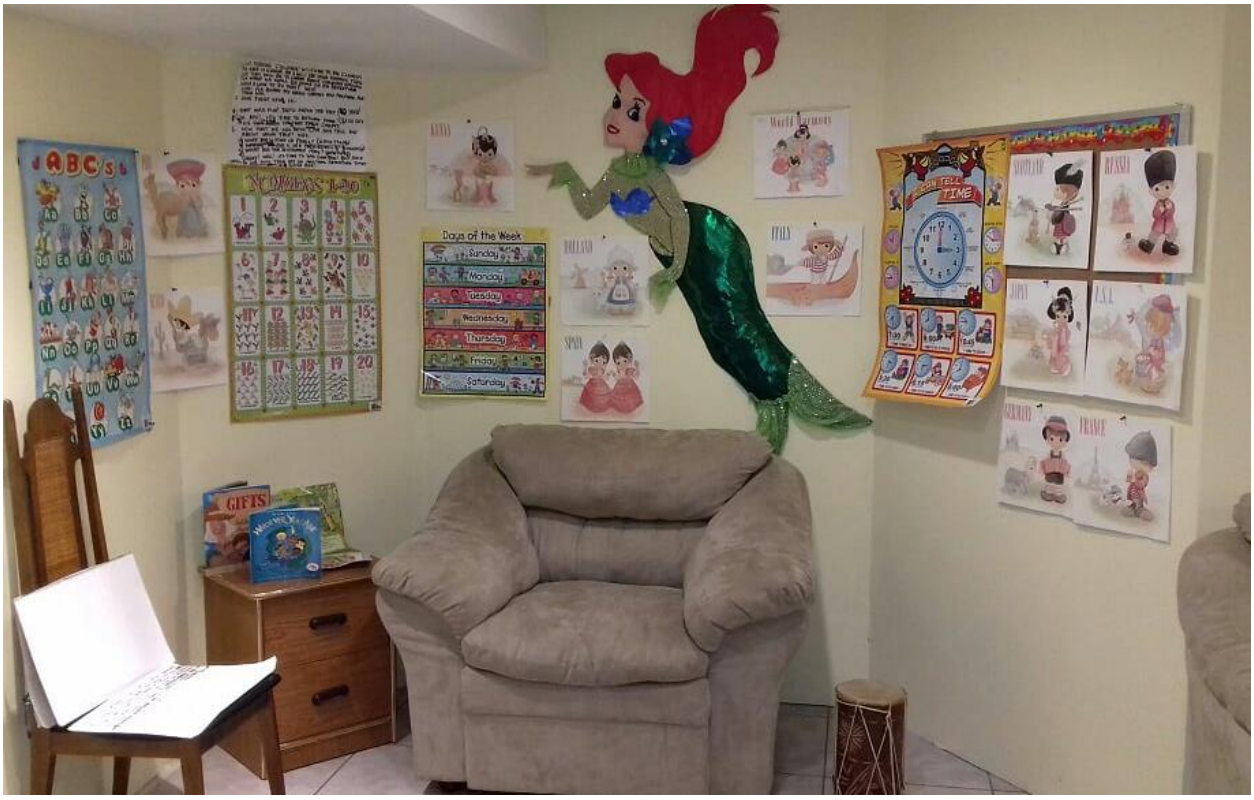
WELCOME TO MY VIRTUAL CLASSROOM

"IT IS NEVER TO LATE TO LEARN!" "LET THE SKY BE THE LIMIT"

Teaching is my passion as well. Enjoy teaching English to Adults and children. After many years of working in the Legal field, I am now back to my first love! Teaching English as a second language to the people who really need it. Many of my students have been an inspiration to me, they have taught me so much about their cultures, customs, and have been avid learners of the English language. I feel so blessed and elated when they excel in their endeavors. More like a proud parent then a teacher.

I truly believe that teaching anything is based on the good rapport that a teacher builds with her students. Like Compassion, Understanding each student's needs, Team interaction most important of all good organizational skills.


Each lesson must be a fun-filled experience, where a Teacher instills in her students this burning desire to come back for more.
