

## WorkSafe BC Supplemental COVID-19 Safety Plan Summerland Curling Club (SCC)

January 18, 2022. v2.0

This document lists the changes the Summerland Curling Club has implemented in its re-opening plans with health and safety at the forefront. We have followed the guidelines and considerations for safe reopening amidst the COVID-19 pandemic, utilizing the Hierarchy of Control Chart from WorkSafe BC. The four controls listed below were the primary focus for creating our Supplemental Safety Plan.

## Summerland Curling Club Supplemental Safety Plan:

### Levels of Protection

#### **1. Physical Distancing (First Level Protection)**

- We will be limiting the number of people in the curling club. Our capacity limits in the lobby are 50% of total occupancy.
- Capacity numbers will be monitored by our two Ice Technicians, Andrew Barnes, and Dean Jones. If they are away, the League Rep will monitor capacity numbers.
- Lockers are in use this year.
- Tables with 4 chairs are stationed 2 meters apart in the lobby for curlers to use.
- In the lounge, our capacity is 50% of total occupancy. However, the PH order on Dec 23, 2021 ordered our lounge to close and that order has been extended to at least Feb 16, 2022.
- Physical distancing is strongly recommended for the common areas of the club as well as on the ice.
- Anyone showing COVID-19 symptoms must self isolate and follow guidelines set out in the SCC Illness Policy before they return to the curling club.

#### **2. Engineering Controls: (Second Level Protection)**

- We have installed plexiglass at the bar area to provide a physical barrier to airborne transmission.
- Two standing hand sanitization stations and 2 wall hand sanitization stations have been installed at the curling club.
- A railing has been installed near the bar to reinforce the flow of patrons at the bar.
- COVID-19 signs have been added to the walls to remind patrons of the rules.
- Masks are mandatory in the common areas of the club and are optional on the ice.

#### **3. Administrative Controls: (Third Level Protection)**

- Members, staff, and volunteers are encouraged to use hand sanitizer when entering the facility.
- Signage will notify people not to enter if they are sick or have any symptoms, to wash or sanitize hands frequently and to always maintain 2m physical distancing.
- The SCC Return to Curling Plan, the Risk Management Document and the Illness Policy will all be available on our website and at the front door entrance for all participants.

#### **4. Personal Protective Equipment (PPE): (Fourth Level Protection)**

- Masks must be worn in the common areas of the SCC.
- Members are responsible for bringing their own PPE to the curling rink.
- If a medical or First Aid event occurs on the ice, staff must wear a face mask to treat the injured person.
- Wash hands after removing PPE.

## **Staff Training:**

- Before staff enter the SCC workplace and throughout the day, employees should self-monitor for symptoms associated with COVID-19.
- Our Ice Technician and League Reps will monitor user groups to ensure they are following the SCC COVID-19 Safety Plan protocols.
- The SCC will educate staff, volunteers, and members on facility expectations.
- Curlers can leave all their belongings in their lockers.
- Staff are required to always wear a mask in the club.
- Staff training to include the following documents:
  - Parks and Recreation COVID-19 Facility Guidelines, Summerland Curling Club
  - SCC COVID-19 Return to Curling Plan Jan 18, 2022
  - WorkSafe BC Supplemental COVID-19 Safety Plan – SCC 2022
  - SCC Illness Policy Jan 18 2022

## **Cleaning and Sanitization:**

- Our goal is to increase cleaning and disinfection of high touch points to prevent COVID-19 from spreading through contaminated surfaces.
- Remove any unnecessary items such as tools, equipment, benches, tables, chairs etc. from public and staff spaces.
- Ensure that hands are sanitized when entering the curling club.
- 2 standing hand sanitizing stations have been installed at the front entrance and in the lounge. 2 wall mounted hand cleaning stations have also been installed.
- Tables and chairs are located 2m apart in the lobby to change shoes.
- Washrooms in the curling club will be thoroughly cleaned in the morning by arena staff. Plus, they will clean high touch point areas in the washrooms at mid-day.
- High Touch Points in the lobby and lounge (i.e. light switches, doorknobs, chairs, counters, buttons, railings etc.) will be cleaned and disinfected twice daily by our Ice Technician.
- Scoreboards and curling rock handles will be sanitized after each game.

- The use of shared items such as dishes, utensils, food items etc. is not allowed.
- Tables and chairs in the lounge will be sanitized by our Ice Technician in the morning and before the nighttime draw.
- All carpets in the lobby, stairs and lounge will be vacuumed each morning.
- Disinfectant spray is available in the office to spray office equipment before use.

## **Dealing With COVID-19 Cases**

- Any staff, volunteer or members of the curling club must refer to the SCC Illness Policy for handling any case related to COVID-19.
- The Illness Policy is posted on the wall of the lobby of the club, in the green COVID binder at the club and on our SCC website.
- Those who know they have been exposed to an individual who has tested positive for COVID- 19 must monitor their own symptoms and self isolate as required.
- If a patron is symptomatic at the curling club, they will be asked to return home, monitor their symptoms and self isolate as required.
