Outgoing President's Message

ASHRAE NB/PEI members,

I want to thank all our members for their continued support of ASHRAE NB/PEI. In our first entirely virtual year, we held online events which attracted multiple individuals and welcomed new faces. We had multiple meetings with Distinguished Lecturers (DLs), ranging on a variety of topics. Since all meetings were virtual, we were encouraged to use more DLs and our region used the most of them.

I would also like to thank the executive and board of governors for the hard work this past year to create a virtual program along with challenges faced in the virtual environment.

I want to wish success to our incoming Chapter President, John Willden, which has previously been president for the chapter. I also wish the new executive and board of governors a successful year, as we hopefully transition from virtual meetings to in-person meetings again, if allowed. I am confident that John and the new board will be able to provide a program that will interest all members.

I would encourage our members to look at potentially joining our board of governors the next year as we are always looking for membership involvement. This is a great way to volunteer within your field of work and get more involved within the ASHRAE community. If this interest you, contact one of our current board of governors meeting to discuss details and join one of our board meetings to see how our local ASHRAE chapter functions.

I look forward to another year of ASHRAE, and hopefully we will be able to meet in person soon enough.

Sincerely,

Kevin Leger

Incoming President's message

Thank you to all who contributed last year. We had nearly a full slate of programs in the middle of a pandemic.

This year I want to get some structure and scheduling into the way we do things. We will be focussed on schedule and programs as well as we still need a historian and a YEA chair.

Part of the reason we were last-minute last year were the lack of backup. I would like to mandate that every committee prepare someone as a backup. This will help you get things done on the executive, will allow others to contribute and will help to find replacements when you decide to go.

Executive	2021 - 2022

Incoming President's message cont.

The ASHRAE President this year is Mick Schwedler. Society's theme is "Personal Growth. Global Impact. Feed the Roots."

His full video address is on YouTube at:

<https://www.youtube.com/watch?v=stRra4HZHjc>

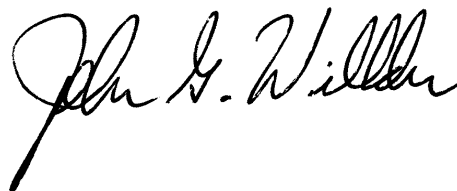

I really encourage everyone to watch the video and think about who fed your roots.

This year we are going to try to keep a two-week lead time between the choker and the presentation. The choker will have the details and EventBrite will take registrations and send reminders as the meeting gets closer.

We're also going to try to stick to a meeting at lunch 12:00 – 1:00 and the presentation right after 1:00 – 2:00. There is some expectation that in-person meetings will begin in December or January. We are looking at the possibility of hybrid meetings where a group participates in-person with the facilitator and others participate via zoom, skype etc.

Finally, I want to thank those that stepped up for this ASHRAE year. I expect we can do some great things and have fun doing it.
