Payment Methods

What forms of payments are acceptable?

We accept the following credit cards for online transactions:

1. MasterCard (including Walmart Rewards MasterCard)
2. Visa
3. American Express
4. Paypal

Sns Automation can only accept credit cards that are issued by Canadian Banks and USA

When will I be charged?

Your credit card will be charged once your order ships. When you place an order, we will place an authorized hold on your credit card — meaning we make sure that your credit card has an available balance for your purchase. If the balance is available, we reserve the amount of your purchase on your credit card so that we can be certain that the credit balance is still available when it comes time to make the charge. At that point, we get your order ready, and ship the item.

Good to know: Authorized and held amounts will not be available for other purchases. If an order is cancelled, the authorization hold will expire according to the terms of your bank or financial institution.

Can I pay when I receive my order?

You cannot pay when you receive your order, however, we're always looking into ways to improve your experience as a customer, including when and how you can pay for your purchases.

Is it safe to order on Snsautomation.com?

Absolutely. Your security and privacy are our priority, and we have taken every measure to ensure that all your transactions on our website are safe and secure. We realize the importance of privacy and believe it's a matter of trust.

You can read about your rights and how we collect and use your information in our Privacy Policy.

What measures has Sns automation taken to ensure my personal and payment information is secure when I shop online?

We're glad you asked! It's important to us that you're protected when you shop with Snsautomationquebec.com, and we want you to know what we do to create a safe place for you.

All account and checkout information is transmitted over a secure (https) connection. Our https servers are secured with SSL certificates, which prevent a "phishing" site from

disguising itself as snsautomationquebec.com. This means that when you are using our website, you can be sure you're only communicating with snsautomationquebec.com.

Concerning your payment information, your credit card information is encrypted prior to transmission to Sns automation's servers. We conform to all PCI (Payment Card Industry) regulations and subject our website to regular audits.

As well, we use Norton Security and VeriSign, who continuously scan our website for potential malware or any other security issues.
